Yes No Do you have "tension" or "frequent" headaches? _____
Yes No Have x-rays been taken recently? When? _____

Chief Concern for evaluation and information desired:_____
_____

Orthodontics is a service that provides an improvement in the appearance of the teeth and in the general function of the teeth, and general dental heath. Teeth, gums, and jaws are an intricate body part and can fail to respond to treatment. If good oral hygiene is not practiced, tooth decay and enlarged gums can result. Joint discomfort and root shortening are observed in a small percentage of cases. Teeth change throughout lifetime and there can be some movement of the teeth and some change after treatment. It is my responsibility to inform the dental office of any changes in medical status. I authorize the doctor/office to release any information including diagnosis and the records of any treatment or examination rendered during the period of such dental care to third party payers and/or health practitioners. I authorize and request my insurance company to pay directly to the doctor or dental group insurance benefits otherwise payable to me. I understand that my dental insurance carrier may pay less than the actual bill for services. I agree to be responsible for payment for all services rendered on myself. I hereby state that I have read and understand the above paragraph and that I have truthfully to the best of my ability answered all the above questions.
